TIONALSAVINGSSOCIETY INTERNATIONALSAVINGSSOCIETYINTERNATIONA

INTERNATIONAL SAVINGS SOCIETY.

The International Savings Society, founded in 1912, has now been in existence 14 years.

It was the first French Savings Society founded in China, and is formally recorded at the French Consulate General in Shanghai, in conformity with the decree of the 19th February 1925, and registered under article No. 3.

It is the only Savings Society founded in China recognised by the Board of Trade in France.

It is recognised also by the Chinese Board of Finance.

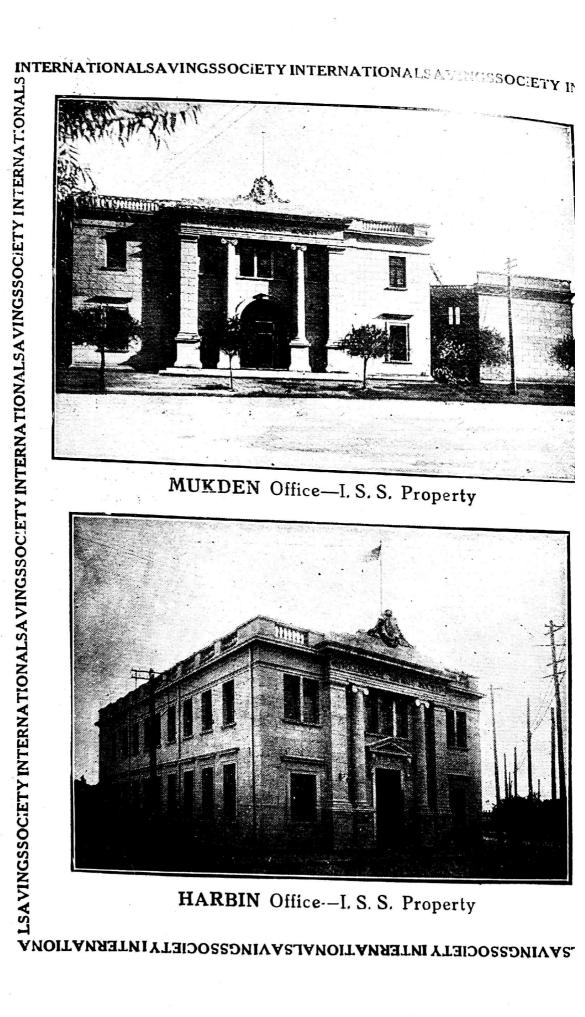

The Premium Bonds of the I. S. S. represent a SAFE INVESTMENT because all the reserves of the Society are mathematically constituted and guaranteed by gilt-edged securities, mortgages, real estate, etc., a list of which is published every month.

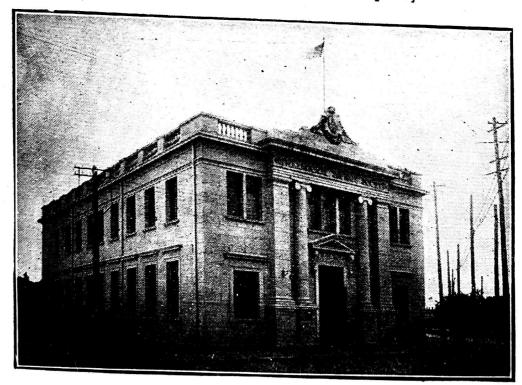

The Premium Bonds of the I. S. S. represent a PRACTICAL INVESTMENT because it enables everyone to immediately invest even the smallest savings as they come to hand.

The Premium Bonds of the I. S. S. represent an INTERESTING INVESTMENT because from thevery first payment, bondholders participate in the monthly drawings which make easily possible the attractive prospect of receiving in advance, very often long before it is due, the triple, quadruple, quintuple, etc., of the capital to be reconstituted.

BUT

WHAT ARE PREMIUM BONDS?

PREMIUM BONDS are direct obligations of the respective Governments, Municipalities, or Companies issuing them, who guarantee the premiums or reimbursements offered and the repayment at time of maturity of the principal invested by the bondholder, together with interest or a division of profits on the earnings of the Companies issuing the bond.

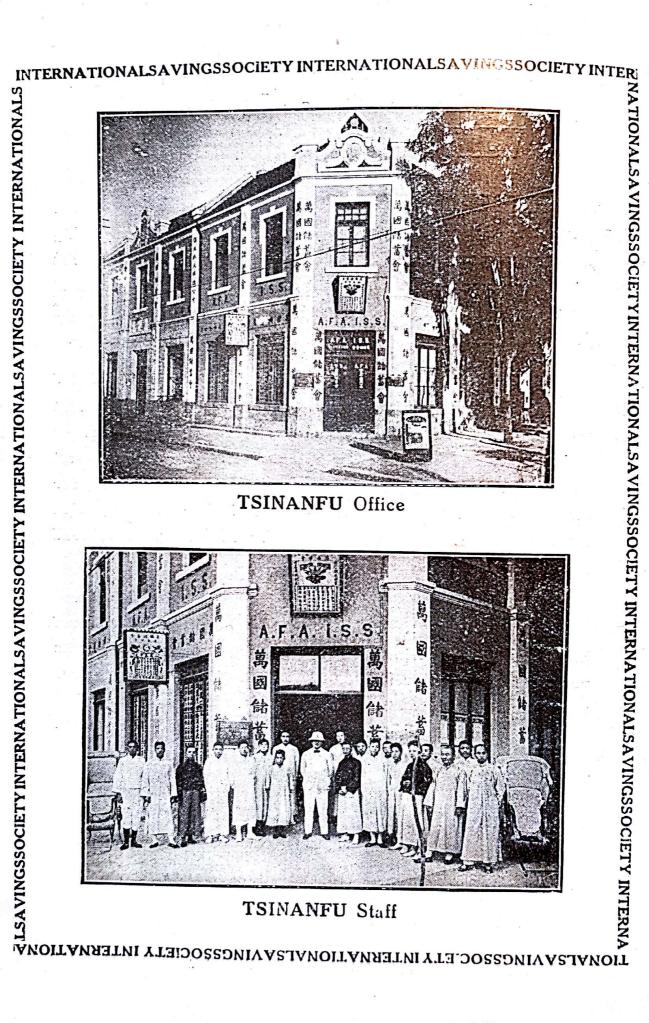

An absurd comparison confusing Premium Bonds with Lotteries. A lottery offer is equivalent to saying: "Give us your money and take your chance of losing it altogether or of winning one of our few prizes," whereas a PREMIUM BOND offer says: "Give us your money and we will guarantee to pay it back in full, with investment profits, and we will distribute REIMBURSEMENTS among the bondholders to be drawn publicly.

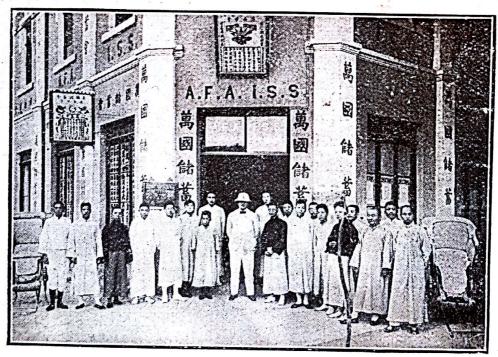

But above all they have this important distinction and merit: they give their holders the benefit of repeated participations in periodical drawings for premiums of amounts varying now from over \$30,000 to \$12. Those drawings are public and take place at regular intervals. They are conducted by the officials and bondholders. A description of a Premium Bond drawing is given below.

The INTERNATIONAL SAVINGS SOCIETY issues Bond drawing is given below.

The INTERNATIONAL SAVINGS SOCIETY issues Bond drawing is given below.

force at date of drawing.

For each series of 2,00.

ments varying from \$2,000

to ments varying from \$2,000

to ments varying from \$2,000

bonds drawing there will be one cumulative pto in value to Mex. \$0.50 for ever.

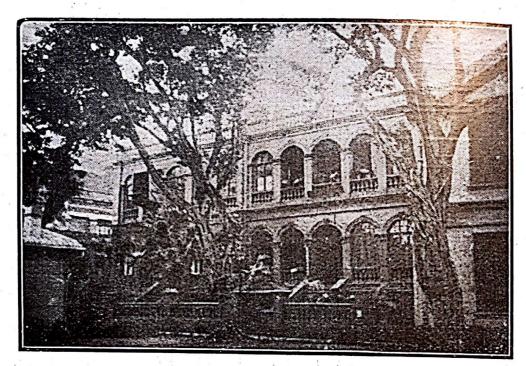

Example: If 60,000 bonds

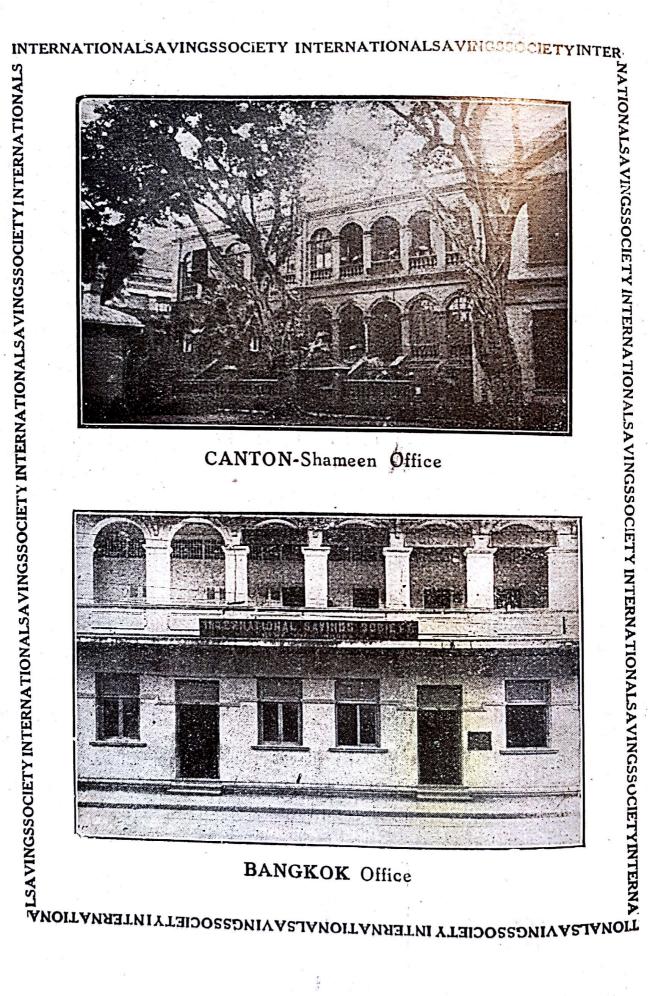

drawing there will be one cumulative range and 6120 reimbursements of \$2,000, bonds are sold there will be one cumulative range.

Each bond participates in every drawin, value (or more) has been reimbursed. The cancelled and its holder receives the amount of the value" at the time of cancellation. It would be pone bond to receive a total of \$1,999 from the drawing and be eligible for a \$30,000, \$50,000, etc., cumulative reimbursement.

Where a bondholder pays his premiums in advance by quarterly, half-yearly, or yearly payments, and the bond upon bich such advance premiums have been paid is fully reimved and thus automatically cancelled, the Society will it to such bondholder all premiums overbaid on such

INTERNATIONALSAVINGSSOCIETY INTERNATIONALSAVING

LSA VINGSSOCIETY INTERNATIONALS A VINGSSOCIETY INTERNATIONALS A VINGSSOCIETY INTERNATIONALS

In every month's drawing a terminal number (from O to 9 inclusive) is drawn.

For instance, if 6 is the terminal number drawn, that means all bonds terminating with the numeral 6 receive credit for payment on the succeeding month's drawing. Consequently, by the law of averages (not the law of certainty) there is one chance in ten to receive \$12 back every month.

The drawings, which are open to the public, take place on the 15th day of every month, at the Head office of the Company, under the supervision of one member of the Board of Directors and the Auditors, assisted by two bondholders chosen from amongst those present.

If the 15th day of the month falls on a Sunday or a recognised holiday, the drawing takes place on the following day.

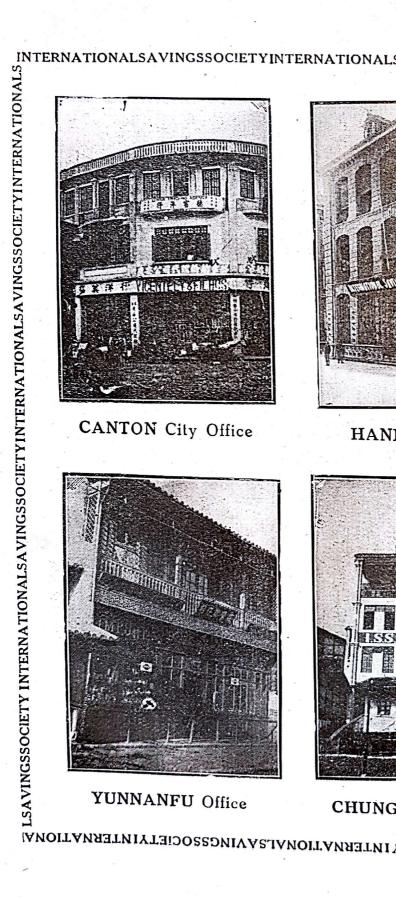

Bondholders not having paid their premiums before noon on the day preceding the drawings forfeit their claims on any amounts they may happen to draw.

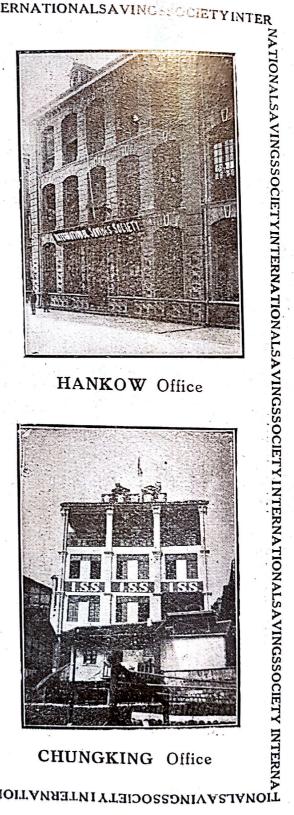

LOAN AND REDEMPTION OF BONDS.

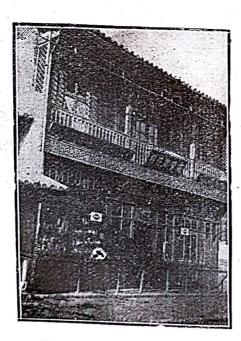

The Society is prepared to make loans on bonds after two years' premiums have been paid to the full amount of the surrender value at 8 per cent. per annum and according to the following scale. Any loan so made will not prevent the bondholder from participating in the monthly drawings provided he continues to pay his monthly premiums.

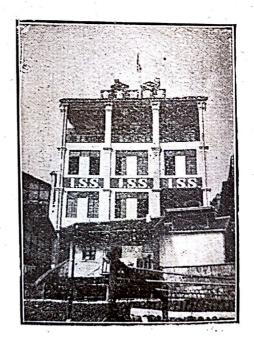

In case of sickness or serious accident happening to the subscriber, the Managing Director may extend the period of paying the premiums from one to six months.

REMARKS

A.—Bondholders may be under the impression that when their numbers are drawn at monthly drawings, the amounts so drawn are deducted from the \$2,000 to which the Bondholder is entitled after 15 years. This is absolutely an erroneous idea.

As long as the total amount refunded to the Bondholder by monthly drawings does not reach or exceed \$2,000 the Bondholder will receive the full amount of \$2,000 at the expiration of 15 years. If however at any time he has received by means of drawings \$2,000 or more the bond becomes legally cancelled and the surrender value is paid out to him at once.

B.—Bondholders may pay their premiums in any currency (£, G.\$, Yens, etc....); in this case the amount paid is converted at the day's Bank exchange rate and the amount credited to the Bondholder.

We will gladly furnish any further information required.
